Art Unit: 3739

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claims 1-107, 225-255 and 275-297, drawn to a method of ablating tissue, classified in class 128, subclass 898.
  - II. Claims 108-206 and 256-274, drawn to a system for ablating tissue, classified in class 606, subclass 46.
  - III. Claims 207-224, drawn to a guide sheath, classified in class 600, subclass 585.
- 2. The inventions are distinct, each from the other because:
- 3. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method could be performed by a mechanical corer.
- 4. Inventions I and Illare related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method could be performed by a steerable cathter..
- 5. Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such cutting, in the See MPEP § 05(d).

Art Unit: 3739

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. A telephone call was made to Mr. Ross Carothers on June 21, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication should be directed to David Shay at telephone number (703) 308-2215.
